## **DETAILED ACTION**

### **CLAIMS PRESENTED**

Claims 1-11, 16-17 are presented.

### ***Response to Arguments***

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

Even after full and careful consideration, the Office cannot determine the intended scope of the claims. At pages 7-8 of the paper filed July 15, 2005, Applicant explicitly argued the cable television and how, at a headend, the cable provider encrypts and then transmits. Yet, the claims do not even mention the cable situation. What is the intended scope of the claims? Applicant is respectfully requested to explain or to amend or to otherwise respond.

### **CLAIM REJECTIONS**

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-11, 16-17 are rejected under 35 U.S.C. 112, second paragraph, as failing to set forth the subject matter which applicant(s) regard as their invention. Evidence that claims fail(s) to correspond in scope with that which applicant(s) regard as the invention can be found in the reply filed July 15, 2005. In that paper, applicant made statements regarding the cable television and regarding how, at a headend, the

cable provider encrypts and then transmits and this statement indicates that the invention is different from what is defined in the claim(s) because the claims do not recite any limitation regarding the cable situation.

***Conclusion***

The art made of record and not relied upon is considered pertinent to applicant's disclosure. The art disclosed general background.
